KATHLEEN GAINOR ANDREOLI, D.S.N.
VICE PRESIDENT, NURSING AFFAIRS AND THE JOHN E. AND HELEN KELLOGG
DEAN OF THE COLLEGE OF NURSING OF RUSH UNIVERSITY

Dear Class of 1994:

Welcome to the front lines of health care reform! New nursing graduates this year will experience the impending changes in the national health care system more than any other class. Thus, consider yourselves pioneers. I believe your educational program at Rush has prepared you for the changing and complex responsibilities of caring for people across the health continuum. It has been our purpose to provide an environment in which you were able to assimilate knowledge, skills, values, and appreciation for nursing and for life-long learning. Now you will join the well over 5000 nurses who have graduated from the Rush College of Nursing and its predecessor schools.

"Vital Signs" is the souvenir of your life here at Rush. Your presence and vitality are clearly visible in the photos herein. We see you actively involved in study, thought and play with classmates, faculty, friends, and significant others..... all who made your life at Rush. We will remember you, Class of 1994. Go forth and take the world. You deserve it.

Sincerely,

Kathleen G. Andreoli

When I have discussed college years with degreed nurses, most have had the same comment, "I don't know how I did it!"

I know how I did it. It was through the support, love, and occasional pushing of friends, family, and faculty. I knew it wouldn't be easy, but I knew it would be worth it.

I am grateful to classmates who showed me around Chicago and collaborated with presentations, reports, and studies.

I thank my instructors who, perceiving my desire to learn, assigned challenging cases allowing me to work beyond my class skill level and discover some inherent aptitudes. They also directed me to reference material that supplemented the texts and provided better understanding of procedures and their rationales.

Most of my thanks goes to my family for their patience and for adjusting their lifestyles to accommodate my hectic schedule. They stood still and let me practice assessments on them enough times that they memorized them. They were sounding boards for papers and presentations. They were fellow researchers for articles. They were tutors offering different and clearer perspectives on difficult concepts. They were chauffeurs operating our own Schaumburg-Chicago shuttle at odd hours. Special mention is due to my dear companion, Tom, who never faltered in his support of my capabilities and was a source of strength when I needed it most.

Crafty men condemn studies, simple men admire them, and wise men use them.

Francis Bacon

I will enjoy the health care profession. There are not only chances to be a caregiver, but also technical challenges that require critical thinking and constant upgrading of knowledge and skills to maintain levels of excellence. This degree is the fulfillment of a lifelong goal. I look forward with great anticipation for opportunities to make significant effects on the lives of people through my efforts.

A school should not be a preparation for life. A school should be life.

Elbert Hubbard

There is an unspeakable pleasure attending the life of a voluntary student.

NURSING: THE JOY AND THE CHALLENGE

Deborah Coutu

Marykay Czerwiec

Nursing school has been a lot like this past year's triathlon. It happened in the midst of a storm, it forced me to muster all the strength I had, and it took forever to finish.

Thanks to my patients. You allowed me to wake you from a sound sleep, insert various objects into your various orifices, ask nosy questions about your personal life and take away samples of your bodily fluids. I hope in the process of doing all this I made a stressful time in your life a little better.

Thanks especially to my first patient. I love and miss you dad.

Lord, teach me to receive the sick in your Name. It is your work: without you, I cannot succeed. Grant that the sick you have placed in my care may be abundantly blessed, and not one of them lost because of any neglect on my part. I entered nursing school not sure of what lied ahead.
It was more difficult then anyone had said.
Bombarded with all sorts of information I wanted to run to the nearest L station.
Classes were overwhelming to say the least and after a clinical day I was a beast.
Pharmacology put us all to the test, since we got through it we know we're the best.
Through hard work and dedication I am proud to say I made it to GRADUATION!

DUTIES OF THE FLOOR NURSE (CIRCA 1887)

In addition to caring for your 50 patients, each nurse will follow these regulations:

1. Daily sweep and mop the floors of your ward, dust the patient's furniture and window sills.

2. Maintain an even temperature in your ward by bringing in a scuttle of coal for the day's business.

3. Light is important to observe the patient's condition. Therefore, each day fill kerosene lamps, clean chimney and trim wicks. Wash the windows once a week.

4. The nurse's notes are important in aiding the physician's work. Make your pens carefully; you may whittle nibs to your individual taste.

5. Each nurse on day duty will report every day at 7 a.m. and leave at 8 p.m., except on the Sabbath on which day you will be off from 12 noon to 2 p.m.

6. Graduate nurses in good standing with the Director of Nurses will be given an evening off each week, if you go regularly to church.

7. Each nurse should lay aside from each pay day a goodly sum of her earnings for her benefits during her declining years, so that she will not become a burden. For example, if you earn $30 a month, you should set aside $15.

8. Any nurse who smokes, uses liquor in any form, gets her hair done at a beauty shop, or frequents dance halls, will give the Director of Nurses good reason to suspect her worth, intentions and integrity.

9. The nurse who performs her labors, serves her patients faithfully and without fault for a period of 5 years, will be given an increase by the hospital and administration of 5 cents a day, providing there are no hospital debts that are outstanding.

One day, St. Peter was interviewing for admissions into heaven. He asked for the next three in line to step forward. To the first he asked, "How many hands have you held when they were too weak to hold yours."? No reply was heard.

St. Peter approached the second and asked, "How many people have you lent your strength to until they could regain their own"? Again, no reply.

When St. Peter reached the third, a Nurse, no question was asked. He smiled, extended his hand and they walked gently into Paradise.

Class of 1994

I WANT TO EXTEND A HUGE THANK YOU TO STUDENT AFFAIRS; DR. WAGNER, ANN, DOREEN, AND CHERYL. THEIR SUPPORT OF THE NURSING STUDENTS FROM ORIENTATION THROUGH RESUMES IS GREATLY FELT AND APPRECIATED. THIS BOOK ALSO MUST INCLUDE A THANK YOU TO DOLORES OLMOS FOR HER INTEREST AND IDEAS, TO CAROL MESSIER AND VICKIE LAWRENCE FOR THEIR PERSISTENT ADVERTISING, AND TO ELKE URBAN FOR ALL THE GREAT ARTWORK. I WANT TO CONGRATULATE ALL WHO SUBMITTED WORK. I THINK WE'VE PUT TOGETHER A SUPER BOOK. AND ANOTHER THANK YOU TO DEAN ANDREOLI AND THE COLLEGE OF NURSING WHO GAVE US THE MEDIUM TO COME TOGETHER, TO LEARN, TO ACHIEVE AND TO GROW. ANOTHER MILESTONE IS COMPLETE.
